By signing this Agreement, you consent to Integrity Family Care providing chronic care management services (referred to as "CCM Services") to you as more fully described below.

CCM Services are available to you because you have been diagnosed with two (2) or more chronic conditions which are expected to last at least twelve (12) months and which place you at significant risk of further decline.

CCM Services include 24-hours-a-day, 7-days-a-week access to a health care provider in Provider's practice to address acute chronic care needs; systematic assessment of your health care needs; processes to assure that you timely receive preventative care services; medication reviews and oversight; a plan of care covering your health issues; and management of care transitions among health care providers and settings. The Provider will discuss with you the specific services that will be available to you and how to access those services.

With the CCM Program your doctor can spend more time on your care – even when you aren't in the office.

Benefits include:

- Chart review in advance of every visit to identify issues that should be discussed and addressed.
- Follow-up after each visit to make sure you're feeling well and that your medications are working.
- Coordinated care between specialists, testing centers, and hospitals to make sure everyone is working together.
- More personalized attention to you and your health management goals.
